

## **SOUMIA HABBOUCHI**

Soumia Habbouchi is forty eight years-old and she was born in Orán (Algeria). She has been living in Spain for eighteen years and she is already a national of Spain.

Soumia has attended lessons at CEPA Bernal Díaz del Castillo for several years, her main target was to learn Spanish, to adapt to our society and to manage to lead a normal life in Spain, (for example: communicate with her kids´teachers, with the doctor, or just going shopping).

She studied Secondary Education at CEPA and achieved her GCSE (General Certificate of Secondary Education). To Soumia, CEPA was like her “second home”, she never felt any kind of discrimination and she found that her teachers were really supportive and encouraging.

Now, Soumia is working and she feels socially included in our society.
