24 Hrs Live Lecture Marathon!

On 4 Dec 2020 and all over the world, lecturers all will hold sustainability lectures for their students. As sometimes, these may be limited to the university's students, we created a programme of open access lectures which you can find below!

Organisational matters:
Software: We use a widely applied online meeting software called Zoom. You will need to have Zoom installed to access the lectures. If you do not have Zoom installed yet, download the Zoom Client here -> https://zoom.us/download#client_4meeting. You can also directly access via the Zoom website (click on -> <https://zoom.us>): At the top of the zoom website press button "join a meeting", then enter Meeting ID, allow the Zoom application to open the link, and enter the passcode.
Device: Connect to the conference using a PC/laptop. Smartphones are not recommended as the display is too small.
Time: Please note that the time indicated is CET. You can convert to your local time with this [time zone converter](#).
Language: Unless otherwise indicated, the lectures are held in **English language**.
Scope: The lectures run for about **30 minutes**.
Good to know: Throughout the entire conference, a WSDTID host will be available if there are any problems or urgent issues.
